The Story of Friends (《老友记》故事简介)

This story is about six people who are best friends. They live close to each other in the big city of New York. There are three girls: Monica, Rachel, and Phoebe, and there are three boys: Ross, Chandler, and Joey.

Monica and Ross are brother and sister. Monica lives in an apartment and she likes everything to be very clean and tidy. She is a chef and loves to cook food for everyone. Ross is very smart and loves dinosaurs. He works at a museum and later teaches at a school. He has loved Rachel since they were very young.

Rachel comes to the city to find her friends. At the start, she doesn't know how to do things for herself like getting a job or making coffee, but she learns fast. She loves fashion and clothes. She works at the coffee shop first, then finds jobs working with clothes, which she loves.

Phoebe is very funny and kind. She plays the guitar and sings silly songs she makes up herself. Sometimes she works giving massages. She had a hard life before she met her friends, but now she has them. She is a little strange sometimes, but she has a big heart and is a very loyal friend. She believes in strange things sometimes, which makes her friends laugh.

Chandler lives across the hall from Monica with his best friend Joey. Chandler is very funny and always makes jokes, especially when things feel awkward. He has a job working with numbers, but nobody is quite sure what he does. Later he finds a job he likes more in advertising. He can be a bit clumsy with girls at first.

Joey is an actor. He wants to be famous. Sometimes he gets small parts in plays or on TV. He loves food very, very much, especially sandwiches and pizza. He is not always the smartest friend, but he is very sweet and cares a lot about his friends. He would share his food, but he doesn't like to. He is very good at talking to girls.

These six friends spend almost all their time together. They hang out in Monica's apartment or in Chandler and Joey's apartment. They also spend hours and hours sitting on a big orange couch in a coffee shop downstairs called Central Perk. They drink coffee, talk about their day, share secrets, and help each other.

Life is not always easy. They have problems with jobs; sometimes they lose their jobs or don't like their jobs. They have problems with dating. They meet people, fall in love, break up, and feel sad. They have family things happen. But no matter what happens, good or bad, they are always there for each other.

A big part of the story is about Ross and Rachel. Ross has loved Rachel for a long, long time. They become boyfriend and girlfriend, but then they break up. Then they might get back together, then break up again. It's confusing for them and their friends. They have a baby girl together named Emma. Even when they are not boyfriend and girlfriend, they have to learn how to be parents together. Through it all, it's clear they care deeply about each other. Many people wonder if they will end up together for good.

Another big love story happens later. Monica and Chandler, who were just friends for a long time, fall in love. At first, they keep it a secret from the others, which is very funny, but soon everyone finds out and is very happy for them. They get married in a big wedding. Later, they find out they cannot have a baby

on their own. This makes them sad, but they decide to adopt. They end up adopting twin babies, a boy and a girl.

Right at the end of the story, Phoebe also finds love. She meets a kind man named Mike. They fall in love and get married too, in a beautiful snowy wedding outside the coffee shop. Joey keeps trying to be a great actor. He has some successes and sometimes where things don't work out, but he never gives up on his dream and his friends always support him. He stays loyal and loving to all his friends, even as their lives change with marriage and babies.

Through many years, these six friends share everything. They share apartments, money troubles, job hunting, dating disasters, weddings, babies, laughs, tears, and lots and lots of coffee. They fight sometimes like real families do, but they always make up. They are more than just friends; they are like a family they chose for themselves. They show that having good friends can help you get through anything in life and make the good times even better. Their story is about growing up, finding your way, and the importance of having people who love you by your side.
